South Carolina

Roger Gregory, W4RWG

Hello South Carolina,

I hope everyone had a very Merry Christmas and a Happy New Year. The SERA Winter Board Meeting was held in Pigeon Forge, Tennessee the weekend of January 5, 6, 7. Both Jim and I attended and represented South Carolina as your Director and Vice Director. I also have the honor of serving as President of the organization. We appreciate your confidence in returning us once again as your SC representatives for two more years. I promise to answer your emails, letters, and process your repeater applications in a timely manner.

The Anderson Radio welcomes new club member Floyd Wilcox, KG4YCY. The date is set for the annual Anderson Radio Club Hamfest. The date is Saturday, April 14th, 2007 and the location has been moved to Darwin Wright Park just off Highway 178 (Liberty Highway) this is near exit 21 off I-85. There will be no admission fee. Members of the ARC hope that the attendance will improve being closer to the interstate.

The Blue Ridge Amateur Radio Society

The Greenville WCARS VE team gives exams the first Saturday of each month at the Red Cross Building on Grove Road. The contacts are John Chism, ND4N or Sue Chism,

COMMERCIAL REPEATERS FOR AMATEUR USE !

Trade in your old repeater on a new 2 meter, 220 or 440 factory fresh commercial repeater.

With wattages available of 5, 25, 40, 50, 100, 180, or 400 watts of output. Complete packages available that include repeater, full featured computer controller, amplifier, preamplifiers, power supply, circulators, duplexers, cabinets and even hard lines and commercial antennas.

** Our repeaters sound good and hear good **

Technical assistance always a pleasure.

Please come and join our technical assistance reflector on the world wide web (a free service). Information available from licensed E.E.s and P.E.s all repeater, lines and antenna technical issues.

The Columbia Amateur Radio Club provided communications for the MS 150 Bike tour. There were 500 riders on a 75-100 mile course traversing 4 counties. Thirteen members of the club provided support and gear at Rest Stops and shadowed Tour Officials. Those were Jay Anderson, W4JRA; Roger Arnett, KF4PRV; Robert Cooke, K4RKC; Greg Devilbiss, KA4OFD; David Huddleston, KI4LKG; Jeff Johnson, N4UQM; Ronnie Livingston, W4RWL; Tammy Livingston, KI4PTJ; Gary McCullogh, W2UX; Boykin Rosenbourough, K4AJJ; Teddy Warren, KF4VZJ and Thalia Wilhide, KF4UMR.

The Florence Amateur Radio Club welcomes new members French (Stormy) Bishop, K4NOC, and his wife Lois. My friend Dave Jones (Club President) has a new call. It is KM4D. The FARC recognized R.K. Harmon, KC4UTX, as Member of the Month. The movie "The Strangers" is being filmed in Florence County. Stormy Bishop, K4NOC, supplied the Amateur Equipment for the movie. It stars Liv Tyler and should be in the theaters by next fall. The FARC will celebrate their 40th anniversary soon. A 1966 call book shows W4ULH licensed to the Florence Amateur Radio Club.

The Greenwood Amateur Radio Society had a presentation at one of their meetings on PSK 31 presented by Harvey Hill, WB4KXE. The GARS wished to thank Jeremy Manning, KI4CCZ, for the great work on the club website www.w4gwd.org. The GARS extends its sympathy to the family of Dolly Dee Minor, KA4KHJ, who passed away October 30th. She was the wife of Spence Minor, K4KEP, of Grey Court, SC. I remember seeing Spence and Dolly at the Greenwood and Union Hamfests for years. I also want to extend my sympathy to the family. The GARS holds a net every Thursday night at 9:00 p.m. on the 147.165 Repeater. The GARS held their annual Hamfest on January 13. I was glad to attend and I appreciate the table for SERA. It was a fun event. Greenwood was my first exposure to a hamfest way back in 1993.

The Laurens Amateur Radio Society continues to expand and build more sections on their website. They have included a section where you can go and take online ham exams. Check out their site at www.k4lsc.org.

The Pickens County Emergency Communications Group had a presentation at their October meeting on Slow Scan TV and how it could be used in case of an emergency. Cliff McLeod, WB4DPP and John Ligon, K3ZX, made the presentation. Lorie Linkenhoker of the Emergency Operations Center Staff was the guest speaker for their November meeting. She spoke about the new WEB-EOC that Pickens County will be using in the future. The PCECG has purchased a camper to be converted for a mobile

HI PRO REPEATERS

Hi Pro "R1" Repeater
144 MHz, 222 MHz or 440 MHz
Here is a compact **LOW COST** repeater (less controller) priced at just $699. A 35 watt VHF (2-meter) repeater with a computer controller, voice synthesizer, auto patch, auto dialers, user functions, etc. is priced at $1,179. This is not a kit, but a complete repeater with a two-year warranty. 222 and 440 MHz versions are also available!

Hi Pro "E" Repeater
144 MHz, 222 MHz or 440 MHz
The Hi Pro "E" is the choice if you need a repeater with a built-in power supply, plus room for an extra receiver, transmitter, small duplexer and controller. The front panel provides status indicator lights, a speaker, a microphone connection, control switches, etc. Prices start at just $1,450!

If you need a receiver or transmitter as a board or in an enclosure, we can provide them. These are the same high-performance units that are used in all of our repeaters. All have our new QUALITY AUDIO AND STABLE OSCILLATORS.

EV1 VHF Transmitter

command center. More on that in the future.

The Ridge Amateur Radio Society meets the 4th. Tuesday of each month at the Batesburg-Leesville Leisure Center at 7:00pm. Send me your club news please.

The Spartanburg Amateur Radio Club wishes to thank Art Patterson, KE4EAN, for completing the task of providing back-up power for the 440 machine, so that when the ETV loses power, our equipment will remain stable. A program at a recent meeting was conducted by Marc Tarplee, N4UFP, on the subject of Low Band Propagation. Marc is an interesting and informative presenter. On November 9th the SARC provided a special VE testing session for Cherokee County. Starting time will be 6:30 p.m. The annual Christmas party was held December 5th at the Golden Corral.

The Salkehatchie Amateur Radio Society is called frequently to participate in simulated or actual emergencies. The program for October was how to construct a four element two meter quad antenna. Steve Thomas, KI4KRP, distributed plans with a materials list and described how to prepare materials, assemble and tune the antenna.

The Union County Amateur Radio Club

The Union WCARS VE Team holds exam sessions the 2nd Thursday in January, March, May, July, September, and November at 7:00 p.m. in the Union County 911 Center training room on North Pinckney Street in Union, S.C. Contact Jim, WJ4C, for information, wj4c@charter.net.

Attention South Carolina Repeater Owners. Are you a SERA Full Member? I would like for you to consider joining the SouthEastern Repeater Association. The cost is only $ 20.00 per year. Send in your full membership dues today. Let's make South Carolina 100 %. SERA needs your support and with full membership not only will you support the SouthEastern Repeater Association, you and your designee will receive the

Program your amateur radio like a Pro

with software from

RT Systems, Inc.

Since 1995. The original software for amateur radio programming.

RT Systems software is approved for use by major radio manufacturers and available through their dealers.

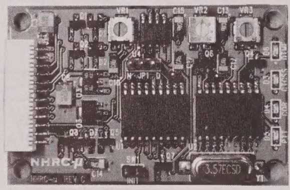
NHRC
REPEATER CONTROLLERS
NHRC-μ (Micro)
Ultra-Compact
Repeater Controller/IDer



(actual size 1.25" x 2.00")

NHRC-μ Features
- Repeater Controller, IDer, or Beacon modes
- High and low-going COR and CTCSS inputs
- Extremely compact
- "Intelligent" ID algorithm
- Programmable CW ID speed and pitch
- 21 Control operator settings
- 4 User commands
- 5 Saved setups
- Touch-Tone remote control and programming
- Windows™ based, serial port programming
- Hang timer, ID timer, Timeout timer, and CW messages stored in non-volatile memory
- Jumper-selectable receiver deemphasis
- LED CAS, CTCSS, PTT, and DTMF indicators
- Extremely low power consumption

The NHRC-μ ("Micro") is a compact repeater controller/IDer designed for easy installation in close quarters. The NHRC-μ can function as a conventional repeater controller, as an IDer for repeaters, or as a beacon controller. It can be easily mounted with double-sided foam adhesive tape, and connected to the equipment with flying leads, allowing for easy installation in almost any equipment.

The NHRC-μ is programmable by sending DTMF sequences over the air, or by computer with a serial port connection and the free NHRC-μ programming software. The CW ID, hang time, ID timer, timeout timer and courtesy tone beeps can all be programmed by the user. All programming is stored in non-volatile EEPROM memory.

The NHRC-μ (Micro) (Assembled and Tested): $119

Bob Gault, KD4NEC

It is time for those of us who serve as weather spotters to refresh our knowledge of all aspects of severe weather. The National Weather Service will be busy this spring conducting spotter education classes across the state for those who want to become amateur meteorologists. For information on a class near you, consult the NWS websites for the Morristown, Nashville and Memphis forecast offices.

While most of us generally think of running out to the nearest dealer when we want new equipment, Doug Campbell N1CWR gave members of the Radio Amateur Club of Knoxville an option: build your own. Sounds interesting and it offers a good way to learn, first hand, how a piece of equipment works. Doug also visited with the Oak Ridge Amateur Radio Club for a similar presentation.

Speaking of Oak Ridge, they say their hamfest was a success. Good planning plus hard work equaled a profit for the club. Plans are underway now for 2007. New officers include Doug Campbell, N1CWR, president. Outgoing president Tom Muncy, AG4SF, will serve doubly as past president and recording secretary. Gwen Cole, KF4ROX, will also stay on as treasurer. September's program featured Jack W. Creed, K4EPC, who talked about six meters, particularly beacon frequencies, net frequencies and times.

The Bristol Amateur Radio Club has some new people in office for 2007. Their officers include Charlie Stuchell, K4CWA, president, Tom Shutters, K4FJW, vice president, Toni Ward, KF4BMW, treasurer and Mike Otis, K0TIS, secretary. Ben Morris, K4EDI, is now editor of the club newsletter, *QRM*. He takes over from Lonnie Ward, W4FXO, who has edited the newsletter for 17 years.

We noticed a mention in the BARC newsletter that the 224.100 repeater on Brumley Mountain is off the air. The report says wind gusts last month of 120 mph took down the tower that held the antenna. Several commercial repeaters are also affected by the outage.

Glen Clayton, W4BDB, will be president of the Cleveland Amateur Radio Club this year. Glen was among those that founded the club in 1962. He's laid out a plan for this year after hitting the ground running.

Visit the Maury Amateur Radio Club's site at www.w4ggm.org. They have a lot of information, including the latest newsletter. I plan to check out some of the links on the computer page of their January newsletter to see how they work. It's one of the best sites I've seen recently for amateur radio.

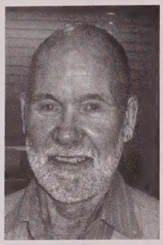
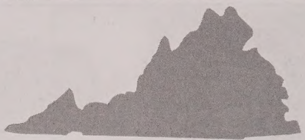
OUR
20th
Year!





Virginia

Fred Weaver, KG4BKI

Happy New Year to all from Podunk. I hope you are looking forward, as I am, to the challenges and opportunities for Amateur Radio in 2007.

Portsmouth ARES involved in award winning emergency exercise.

On October 23, 2006 the Portsmouth Amateur Radio Emergency Service participated in an emergency exercise in the City of Portsmouth. The exercise, code name "KITTIE" (**K**-12 **I**ncident **T**actical **T**est **I**n **E**ducation) was designed by the Portsmouth Local Emergency Planning Committee (LEPC) to test and evaluate the emergency response to the take over of a school by armed persons.

The exercise was conducted at an abandoned high school utilizing the cafeteria, hallways, and several classrooms.
Role players from Virginia Commonwealth Challenge and the Portsmouth School System provided some 125 students, teachers, principals, and parents.

The scenario involved several armed persons entering the school during normal class hours, firing shots, and taking teachers and students hostage. It also included a school bus set on fire and a second school bus with students taken hostage. The exercise began at 1025 hours and lasted well into the afternoon.

Responding agencies included the following:

Portsmouth Fire/EMS
Portsmouth Police
Regional SWAT Teams
MMRS
Maryview Medical Center
Portsmouth Public Schools
Virginia Commonwealth Challenge
FBI
Portsmouth ARES

Portsmouth ARES was responsible for primary communications between the Exercise Controllers, Safety Officers, PIO, and Evaluators. Six Team Members were assigned to shadow these individuals. Two Team Members were assigned to Maryview Medical Center Command Center. Net Control was established on the W4POX, 146.700 repeater. Net Control was handled from the Portsmouth ARES communications trailer.

Portsmouth ARES EC, David Livingston, K5SFM, was in command and served as liaison with on-scene command. This became an issue with Incident Command (Police Department Controlled). The Incident Command (IC) failed to implement and recognize the concept of "Unity of Command". As a result, communications with IC became a real problem; in fact, non-existent. In addition, IC could not communicate with a majority of players including Maryview Medical Center. A major portion of this communications interoperability could have been resolved if IC would have recognized our role and utilized our capability. Although Portsmouth ARES is listed as a communication resource in the City Emergency Operations Plan, the IC elected to ignore us. In spite of the obvious disregard of our presence, Portsmouth ARES continued to provide communications among all exercise officials. Every official was very impressed with our communications and during the "Hot Wash" after the exercise, the Lead Controller stated, "I don't know what we would have done without the Amateur Radio People. We would have had to communicate with string and tin cans".

Portsmouth ARES responded with two communications trailers, fourteen team members, and provided 145 man-hours to this exercise. We were ready and willing to serve. As in all exercises the primary purpose is to identify weak areas. Over all it was apparent that communications was a major problem. We hope that lessons will be learned from this and actions taken to recognize the value of Amateur Radio.

Portsmouth ARES also recognized some areas that need improvement and is taking steps to find solutions. We feel that we did well in our role in this exercise and, if allowed to do so, could have helped to resolve some of the major communications failures. Portsmouth ARES thanks John Higgins, Vice Chair of the Portsmouth LEPC for allowing us to participate. His support and that of the Portsmouth LEPC have been outstanding. Portsmouth ARES leadership would like to thank team members who gave many long hours of their time to support this event for a job well done: David Livingston, K5SFM; Ken Murphy, KI4GEM; Bill Farmer, KI4GWC; Carl Clements, W4CAC; Ray Hudgins, K4CRH; Mary Hudgins, K4MLH; Carter Howell, KI4NLH; Justin Wylie, KI4LYP; John Johnson, K0IBS; Roger West, KI4QAU; Steve Molo, KI4KWR; John Garner, KE4GPA; Terry Buzzard, KA8TNF, and Steve Balch, KF4DAX.

Recognition of the LEPC's efforts came in the form of an US EPA Region III Partnership Award. The award was presented to the LEPC during the opening session of the Emergency Preparedness and Prevention Conference on December 4, 2006.

Report provided by Ken Murphy KI4GEM, Asst. EC, Portsmouth ARES.

Off-the-Grid Power for new repeaters in Buckingham County

From the ARESVA home page, (www.aresva.org) report by Henry Wyatt II, Virginia SEC

This just in from (Herbert G Winn) WW4GW: The Buckingham County repeaters have been placed on-line. The 2M repeater consists of a Motorola MSR-2000 with an output power of 45W into a Diamond antenna with a frequency of 146.790, - offset, 167.9 PL (input and output). The 6M repeater is a GE MASTR-II with an output power of 45W into a Ringo antenna with a frequency of 53.23, - offset (1mhz), and also uses a 167.9 PL on input and output.

The repeater system is totally off the power grid and is powered by batteries that are charged by solar panels. The Buckingham ARES team was fortunate to have been offered the building on top of an abandoned forestry lookout tower to install our equipment. The antennas are 880' above sea level and 150' above surrounding terrain, providing excellent coverage of central Virginia.

Mobile coverage extends into the surrounding major urban areas (Richmond, Charlottesville, Lynchburg). The location of the repeater site can be viewed on a State map - find Route 15 just North of Dillwyn,

VA and look for "Alpha". The fire tower is 1/4 mile East of Alpha.

This installation was completed and entirely funded by the Buckingham County ARES - no funding was provided by governmental agencies. The ARES group did have the approval and cooperation of the Buckingham County EC. Some early problems were resolved by replacing the batteries and the system is operating properly.

Amateur Radio Military Appreciation Day (ARMAD)

Report from the AARC web site
<http://www.albemarleradio.org/>

Over the weekend of Sept. 30 and Oct. 1st, the **Albemarle Amateur Radio Club (AARC)** operated a special event station from the Albemarle County Office Building under the callsign W4DO (the club's special-event call). Several club members operated from the All-American Military History Weekend festival to contact active and retired military personnel around the world.

The club's event station was part of Amateur Radio Military Appreciation Day (ARMAD). The purpose of this event was for Amateur radio operators from around the world to team up during this joint effort to allow the people from our communities to gather at public locations to express verbal positive support "live" over two way radio for members of the Military, Veterans, National Guard, Retired, Coalition Forces and Military.

On hand for the event were, Jay Rostow, K4AZV; Steph Rostow, K4BMM and Ben Mills, N4CV .

For more information Amateur Radio Military Appreciation Day, visit <http://www.armad.net/>.

Tidewater Wireless provides this update on their repeaters in their November 2006 newsletter. (http://www.w4vb.org)

Many enhancements to the Tidewater Wireless repeaters have been accomplished over the past several months. We have also expanded the number of repeaters we operate. Special kudos to KO4FR, N2NMH, and WA4WX for the substantial amount of time and effort expended in support of the repeaters.

The Norfolk 145.33 and 442.95 repeaters are running on new equipment and share the same controller. This has enabled the two repeaters to be linked together full-time. They may also be operated as stand-alone repeaters when the need exists. The 145.33/442.95 system has a weather alert receiver connected, but is not yet fully functional. The repeater controller has a digital voice recorder that can be used to send Tail Messages. Such messages are currently set to sound at intervals no sooner than 15 minutes. The 145.33/442.95 system includes a remote base that is still being worked on. Band modules include 440 MHz and 6 meters. An EchoLink connection is now also available on this repeater system. The autopatch is being adjusted, so you may have better success making calls on 147.375 until the adjustments have been completed. The repeater transmits CTCSS 131.8 and may also be set to require a user to transmit the same tone.

The Norfolk 147.375 repeater is the newest Tidewater Wireless repeater. It has a 440 MHz remote base as well as autopatch. The antenna is about half the altitude as the one on 145.33/442.95, so the range is somewhat less. The repeater transmits CTCSS 131.8 and may also be set to require a user to transmit the same tone.

The 145.17 WA4ZUA repeater should soon be on the air in Hampton. This repeater will not have autopatch capability, but will otherwise function the same as the W4VB repeaters.

More information on the repeaters, their operating modes, EchoLink operation and how to get set up in their auto patch is on the groups web site.

Hampton Public Service Team had a busy day in early December installing new hardline from the roof of Hampton City Hall into the radio room. When the work is completed they will have five VHF and five UHF radios in addition to HF. Two of the radios will be dedicated to packet. Other work is in progress relative to portable stations for use in City of Hampton's shelters.

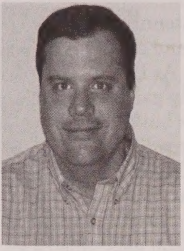
Several Volunteers associated with **Virginia RACES Inc. (VARACES)** have been working to install a tower, antennas, &c to add HF capability to the Amateur station at the Wakefield NWS, Wakefield VA. A report will be provided when the project is completed.

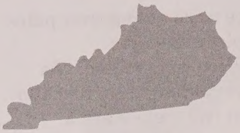
Events I'm looking forward to in the coming months:

Frostfest
Sunday, February 18th
The first no-code VE session under the new rules should be interesting.

Shamrock Marathon
March 18th
A special event station, **K4M,** celebrating the opening of Monitor display at the Mariner's Museum, Newport News, VA, March 9, 10, 11.

73, bki>





Kentucky

Pat Spencer, KD4PWL

Welcome to 2007. This New Year will bring change and growth for Kentucky amateur radio. Results from the ARRL Section Manager ballot were not available before press time. After six years of solid leadership, **John Meyers, NB4K,** is passing the torch. Growth is expected as a result of the elimination of the Morse Code requirement. Early feedback from volunteer examiner groups shows a surprising number of inquiries concerning the new licensing requirements and privileges.

The FCC's decision to eliminate the Morse Code requirement is sure to cause mixed feelings within the current amateur radio community. The R&O acknowledges the advancement of technology. Continuous Wave transmissions are the best method of "punching" through noise in an emergency, and a much respected mode of communication. It is my wish that just because it isn't a requirement that it gains a new following by those who wish to honor the history of not only amateur radio, but wireless communications.

Let's now turn our attention to the future of amateur radio and welcome those who now wish to join our hobby and bring energy to our local clubs, perform valuable community and emergency service with our ARES/RACES groups and promote the next generation of ham radio.

Repeater News

SERA Kentucky Director, **Mike McCown, K4ITF,** reports several new coordinations. The **KI4BQN** 147.060 in Grayhawk, KY, a new repeater is now coordinated. Repeaters on the move include the **KJ4VF** 147.045. It is moving from Grethel to Dorton. Also on the move and changing call signs from **WB4UBY** to **KJ4VF** is moving a few miles southwest of Prestonsburg. An additional three repeaters have changed call signs. The **KF4WMM** 147.135 in Sandy Hook and 444.600 in Brushy Fork are now coordinated under the call sign **KD4DZE**. The coordination for the KA4WZX 146.775 in Middleboro is now **KT4OT**.

Several repeater coordinations are also in progress. Two meter repeaters undergoing coordination include the **KD4DZE** in Dewdrop, **KY4LAW** in Lawrenceburg, **N4KJU** in Paintsville, and the **WA4YZY** in Pineville. Seventy centimeter repeaters in Paintsville and Prestonsburg are in progress under the KR4MT call sign.

See the next issue for more repeater updates from McCown, SERA Kentucky Vice Director **Tim Osborne, K4TDO**, and SERA Kentucky-West Assistant Director **David Forbis, KD4DVI**.

Kentucky Notes

March renews the hamfest season in Kentucky. The Cave City Hamfest sponsored by the **Mammoth Cave Amateur Radio Club** will be March 3 at the Cave City Convention Center located at 502 Mammoth Cave Street, Cave City, KY. Contact **Larry Brumett, KN4IV,** for information at 270-651-2363. Talk-In will be on **KY4X** 146.940-. The Kentucky ARES Operator of the Year and other awards will be presented.

March 31 brings the **Lincoln Trail Amateur Radio Club** Hamfest to the Pritchard Community Center located at 404 South Mulberry Street, Elizabethtown, KY. Contact **Randy Morris, KD4NYD,** at 270-877-0131. Talk-In will be on **W4BEJ** 146.980-.

The **Kentucky Colonels Amateur Radio Club** in Bowling Green named **Jeff Martin, WB4JM,** as their 2006 Ham of the Year. The club also presented the 2006 Tech of the Year Award to **Gary Logan, KI4JJT.**

Working it out

Amateur radio has a long relationship with federal, state and local agencies as an emergency communications pathway to protect and help our communities respond to disasters. Since 9/11, emergency management partners such as hospitals have been reaching out to ham radio operators to include them in the communications network to provide additional response during times of emergency.

Such an opportunity presented itself early in 2006 when Hardin Memorial Hospital in Elizabethtown, KY approached Kentucky ARRL Section Emergency Coordinator **Ron Dodson, KA4MAP,** asking to be designated not only a served agency, but also a sponsor facility. Hardin Memorial Hospital is a 300 bed regional healthcare facility whose emergency room serves 48,000 persons annually from a twelve county area. Its substantial role in local or regional emergencies would make it the ideal location for an amateur radio repeater.

Vann Lantz, K4VGL, and Dodson began the search in July of 2006 with assistance from **Tony Whobrey, KY4SP,** and consultation with SERA Kentucky Vice Director, **Tim Osborne, K4TDO**. When it comes to emergency communications, two meters are preferred because of the wide availability of equipment. The team instantly hit a roadblock as there were no repeater pairs available in the area.

Dodson commented, "As with everywhere else, repeater pairs on two meters are a scarce commodity. With all of the 'Paper Repeaters' out there it is hard to find a place for a working machine. A search was started to find someone who had coordination, but who had not placed an active repeater on the air. After a few contacts, shortly after January 1, **Harold Bennett, AI4HB,** agreed to release coordination on the 144.750/145.350 pair which used to operate in Hardin County before it went offline."

Dodson continued, "The new machine is planned to use a GE MASTR II 100 watt repeater and DB products cavities with a 6 db antenna high above the hospital and should offer good coverage. As the hospital has emergency generators, which power the building, emergency power is readily available. While still pending coordination, it is hoped that soon Elizabethtown will have a new repeater before storm season gets underway and amateurs in the area or traveling I-65 in the region will have another option for communications. Special thanks to Harold, AI4HB, for unselfishly giving up the pair for the effort. We wish that more holders of paper only would do the same."

This is another fine example of amateur radio cooperation.

2007 Full Member Application

THE SOUTHEASTERN
REPEATER ASSOCIATION, INC.
Providing voluntary frequency coordination for Amateur Radio repeaters in Georgia,
Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Virginia and West Virginia

Please fill out the this SERA Full Member Application completely. Be sure to list 2 persons as SERA representatives. **ONLY these two will have voting rights, and receive the *Repeater Journal*.** MAIL YOUR CHECK AND APPLICATION TO: SERA FULL MEMBERSHIP, P.O. BOX 215, TOBACCOVILLE, N.C. 27050. Deadline to be listed as member in February 2006 *Repeater Journal* is December 1, 2005.

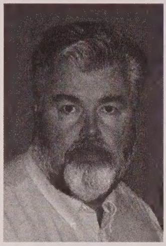
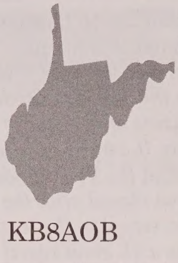
Contact your local coordinator to learn how to obtain coordinated status.

THANK YOU FOR YOUR GENEROUS FINANCIAL SUPPORT OF THE SOUTHEASTERN REPEATER ASSOCIATION, INC



West Virginia



Richard Clemens, KB8AOB

Greetings from West Virginia

Hard to believe it has been a year – a year since this community was watching the drama at Sago Mine #1 and the clash of our emotions as the news changed so abruptly. Today as I watched the national news satellite trucks travel through our town it brought back those feelings and memories of the several intense weeks and working toward helping those in need. Living this close and having so many community individuals involved it is clear the hurt has not healed. I will never forget those crashes of thunder and then the explosion that January morning.

I said then and let me say again it does demonstrate the need to be prepared to help in what ever way we can and in any way we can when needed. Amateur radio operators have kept that at the front of their "hobby" for many years and should never lose sight of how valuable their ability to communicate critical information correctly in times of need. The operation of local nets, traffic handling, and just knowing how and where our equipment works or doesn't work are very valuable skills.

West Virginia has been in the news for additional reasons this year with football stories leading the pack. The movie "We are… Marshall" brings another tragedy to light and does a superb job of illustrating the resolve that is so common in this region.

Two local individuals were involved with the November 14, 1970 plane crash that is the focus of the movie. One, John Young, perished in the crash of the chartered DC-9 in route back to Huntington after a football game. John and another young man, Fred Gaudet were team mates in high school and at Marshall University but Fred had transferred to West Virginia Wesleyan College in our home town just prior to the start of the 1970 season.

In 1969, the Mid-American Conference expelled Marshall from its ranks because of recruiting violations and it was on probation with the NCAA due to the same allegations. Fred wanted to play football with a team that could seek a title so he transferred home. That decision saved him from the crash but not the loss of all of his teammates and friends at Marshall. Later Fred went into law enforcement and served as Sheriff of Upshur County and later the Buckhannon Chief of Police.

So why all of this fuss about a movie? If you read the NTSB report about the plane crash you learn it was also all about communication, accurate communication. While there is certainly some doubt as to the exact reason for the crash so close to the airport, it does appear the determination of and any communication regarding the altitude of the plane were at odds. Had the plane's actual altitude been known or communicated with more accuracy it would have been a safe landing.

West Virginia, the Appalachian state, is unfortunately often misunderstood. The State is repeatedly the subject of jokes and portrayals of poverty. West Virginia has been noted as the southernmost Northeastern state, the northernmost Southeastern state, the easternmost Midwestern state as well as the westernmost Eastern state. Just where does it fit? I have seen many maps with the state in the wrong place, talked to operators that offer a Sacramento store as being close, visited with people from the South that assume I am from the Roanoke, Virginia area, and don't understand at all what West Virginia does have to offer.

It is therefore with sincerity and forgiveness that I want to point out the November issue of RJ shows the West Virginia repeater updates right at the end of the Virginia article by Fred Weaver, KG4BKI. To my knowledge Fred and I have never met but I don't want those loyal Virginia Hams to think for a moment West Virginia is selling out. Virginian's should know we *celebrate* June 20 as West Virginia Day each year commemorating the separation of the Virginias in 1863. Have a Great New Year!

Editor's note: It should be pointed out that we have the greatest admiration for, and hold in the highest esteem, the fine citizens of the Stae of West Virginia. It was by pure accident that the Virginia data table was placed after the West Virginia report in the last issue, and it is with great regret that we acknowledge the error.

Tom, N4IOZ, is quite aware of the difference between the two states, and tries at every opportunity to enlighten those who confuse West Virginia with other parts of the world. In fact, it should be noted that Charleston is the name of a town in both West Virginia and South Carolina and that the advertisement below is for a hamfest in the Mountain State, not the Palmetto State. Please keep this in mind as you plan to attend, because the the two cities are about a day's drive apart from each other!

West Virginia is a wonderful place to visit, as Tom can attest from his stops for lunch there each year on the way to and from the Dayton Hamvention.

We also note here that we regret any confusion that might have been caused by the misplacement of the repeater data and would also point out that this was not the only place in the November book where this occurred (sorry, again, David!)

Finally, it is hoped that Richard and Fred do have a chance to meet someday, as they are both fine folk and have much in common, we're sure.

23rd Annual

CHARLESTON AREA HAMFEST
AND
COMPUTER SHOW

Admission Only $5

Saturday, March 17, 2007
9 AM - 2 PM
Coonskin Armory
1707 Coonskin Drive
Charleston, WV

Great Prizes !

Great Food !

North Carolina

Michael J. Lewis, WA4KE

Compliments go out to Marvin Whatley's last column. I received e-mails commenting that Marvin "hit the nail on the head". Remember to read this and every column in the Journal, for you never know what may catch your interest.

In addition, I received an e-mail from a veterinarian living in Harnett County, NC, who was taking a class in disaster preparedness and management through the University of North Carolina at Chapel Hill. The vet needed info on the mission and purpose of the ARRL, the operational area in NC, the role/ purpose/ function in a disaster response and recovery, and the organizations' strengths and weaknesses. Tim Slay, NC ARRL SM was able to assist this person and provide the necessary information. If you have a question concerning the ARRL and its sub-functions, check out the ARRL's website and search for the subject. You should be able to find a contact person or group. It's good to report that no NC ARRL clubs were on the Inactive List – excellent job updating the database.

North Carolina's Orange County Board of County Commissioners (BOCC) at their regular board meeting on the evening of October 17 recognized the county's volunteer emergency responders, including Amateur Radio operators, for their continuing service. Commemorative plaques were presented to each volunteer fire department and rescue squad and to the Orange County Radio Amateurs.

Also, the Orange County (NC) Amateur Radio Emergency Service group participated in another of their road cleanup activities conducted under the auspices of the North Carolina Department of Transportation's "Adopt-A-Highway" program. Ten ham operators and three of their children spent part of their September 30th Saturday morning combing an assigned section of New Hope Church Road for litter. As a side note, several amateur radio clubs maintain the landscaping around commercial towers in exchange for tower space.

Mr. Eric Tolbert, North Carolina's former emergency management director, died Wednesday, October 18, 2006 in his home. Tolbert, who began his career in Caldwell County, headed the state's Division of Emergency Management when eastern North Carolina was lashed by storms four times in late 1999, including Hurricane Floyd's epic 20-inch rainfall. He was later named director of the Federal Emergency Management Agency's Response Division in 2002. (*The Associated Press*, 10/18/06)

The Tar Heel Emergency Net (THEN) meets nightly on 3923 KHz at 7:30 p.m. is now in its 57th year. Those of you with HF privileges, please try to check in occasionally.

North Carolina ham radio operators joined a worldwide special event on December 29 and 30. This event celebrated the 100th anniversary of first broadcast of the human voice. This special event even included a wedding! In Mooresville, the wedding of Catherine Hage and Buck McDaniel, both ham radio operators, was carried statewide over several ham radio frequencies, on December 30. KI4HOC and KI4IKB were the net controllers. KI4JSQ was the preacher.

Bill Morine, NC ARRL PIO, N2COP, appeared on Curtis Wright's Morning Beat radio program on "The Big Talker", 106.3 and 103.9 FM on December 29 morning to talk about the 100th anniversary of the first broadcast of the human voice and about issues facing amateur radio.

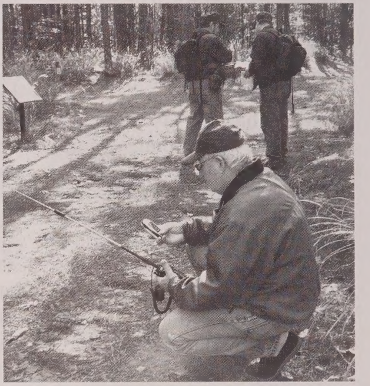
On January 16, 2006, the Durham FM Association emergency communications van was a part of the Bahama, NC annual Christmas Parade, and the ham radio operators on board figured prominently in an emergency response to a child who was injured just before the parade began. The Durham FM Association, an organization of Amateur Radio operators from Durham and surrounding counties, entered their Mobile Communications Unit (MCU) van as one of the approximately 150 floats in Bahama's holiday parade. The MCU was occupied by John Le May, KB4WGA, Emergency Coordinator for Durham County's branch of the Amateur Radio Emergency Service, and Don Watt, Jr., KE4UVJ, Assistant Emergency

Coordinator for Durham ARES. At about 9:45 a.m., fifteen minutes before the parade was to begin, a young girl fell from the float she was on, landing in a ditch onto a metal culvert pipe and lacerating her chin. John Le May's emergency communications training kicked in, and he immediately contacted 9-1-1 using his cell phone, which was the most expeditious way of handling this particular situation.

North Carolina has established an Information Sharing and Analysis Center (ISAAC) through the assistance of U.S. Department of Homeland Security Grant Funds. ISAAC allows for the exchange of critical information among local and state law enforcement, fire, EMS, and others responsible for the health, safety and security of North Carolina. Les Zavadil, W4FRA, was invited to meet with Dirk German and Durb Turner, KC4MID, with the State Bureau of Investigation to discuss the potential for a new role for amateur radio in homeland security. The club has invited Dirk and Durb to attend the state ARES meeting in April to discuss other areas of cooperation between ham radio and our state's law enforcement.

Operation Riverbend

On Saturday, November 18, 2006 members of the Alexander County Amateur Radio Associations' ARES RACES group were called into action to respond to the Riverbend Park in adjacent Catawba County for a drill resembling actual circumstances that would likely be found during a flood emergency. Riverbend Park is located next to the Oxford Dam on the Alexander/Catawba counties line, and the possibility for a flood there is very real and the perfect spot to reenact an emergency. (KE4HKQ)



Alexander County (NC) ARES members respond during the *Operation Riverbend* disaster exercise.

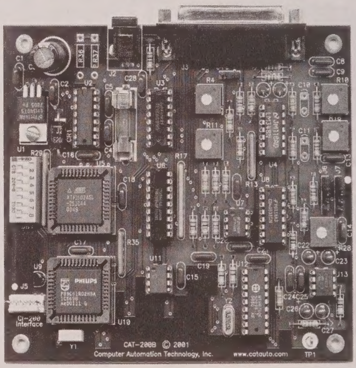
CAT-200 Repeater Controller

This controller was specially developed to provide remote base linking operation and a voice synthesizer at an extremely affordable price.

Features Include:

- *Voice Synthesizer ID*
- *(12) Voice Messages*
- *CW Identifier*
- *Beacon Message*
- *Remote Base Port*
- *DTMF Audio Muting*
- *DTMF Pad Test*
- *(30) Control Functions*
- *(4) Logic Inputs*
- *(4) Output Switches*
- *Optional Peet Weather Station Interface **
- *Optional Windows ® Editor Program **

** Requires CI-200 Computer Interface*



Ordering Information

CAT-200** Controller Board, Wired & Tested* ***$199.00
RME-200L** Rack Mount Enclosure* ***$49.00
CI-200** Computer Interface and Windows Editor* ***$59.00

Computer Automation Technology Inc.
4631 N.W. 31st. Avenue, Suite 142
Fort Lauderdale, Florida 33309
Phone: (954) 978-6171 – Fax: (561) 488-2894
Internet: http://www.catauto.com

For Raleigh and central NC hams, the Mercury Amateur Radio Association Southeast 2 Meter Net meets at 9 p.m. on the 145.13 repeater (tone 82.5). All stations are invited to participate in this net. MARA provides emergency communication support to The Church of Jesus Christ of Latter-day Saints. The purpose of this net is to assist ham radio operators in preparing to respond to emergencies, test their equipment, improve operating skills, pass traffic, and to provide those with a common interest an opportunity to meet.

On Thursday, December 7, the 65th anniversary of the attack on the US Naval Base at Pearl Harbor, HI. The USS North Carolina (BB-55), commissioned on April 9, 1941, was the first Battleship to enter Pearl Harbor since the date of the attack, on July 11, 1942. The ACARC put "The Showboat" on the air again this year as in years past. The club operated one station from Radio Central utilizing the Club's radio gear through the Ship's original transmission lines and antennas.

Tom Forrest, N4GVK, editor of the GARA Feed Line, was recently featured in the High Point Enterprise. Tom, who is a veteran newspaper photojournalist, photographed the November 14, 1970 football action between East Carolina University and Marshall University. This was to be the last game played by the Marshall football team. Shortly before the plane was to land in West Virginia, it crashed at 7:37 p.m., killing all on board. Tom still retains his press pass used in that game along with the original Associated Press photos sent that tragic night.

I would to acknowledge the e-mails, the newsletters and updated websites that I use to obtain news for this column. Without each club's editor, this column and job would be tougher. As long as the editor has the space, we can keep printing the news. Send news, updates and event notifications to <wa4ke@sera.org>.

The Raleigh Amateur Radio Society (RARS) had their excellent website listed as one of the ARRL's club websites of the week on their PR reflector for the third week of December. So clubs, the quality of ham club websites might be something to work on, in order to recruit new people.

(See page 20 for coordination activity report.)

Rockingham Amateur Radio Club Donates License Guides To Eden Library

QST
Ham Radio License Manual
Ham Radio License Manual

Calvin Chandler, KI4BWP; Connie Whitt, Branch Librarian; Tim Walker, WD4GXD. (Dal Williams, W4YQY)

As a celebration of the holiday season, The Rockingham County (NC) Amateur Radio Club gave back to the community. The RCARC donated a year's subscription of QST magazine and two Ham Radio License Manuals to the Eden Branch of the Rockingham County Public Library on December 13, 2006. Accepting the License Manuals for the Library is Connie Whitt, Branch Librarian with Calvin Chandler, KI4BWP and Tim Walker, WD4GXD making the presentation on behalf of the RCARC's Volunteer Examiner (VE) Team. The Eden Library has graciously allowed their facilities to be used by the RCARC VE Team to hold License Test Sessions on the last Saturday of every odd numbered month at 9:00am. The Rockingham County Amateur Radio Club, which meets every third Tuesday of the month at 7:00PM at the American Red Cross on Hwy 14. (www.rcarc.com)

Report for the NC Section on coordination activity for Last Quarter 2006.

The first group listed are existing repeaters that either changed ownership, location, or had technical changes requiring recoordination. (8 repeaters)

NC4OC	147.0000	Jacksonville
WD4FVO	145.1900	Jacksonville
K4AE	442.9250	Lexington
K4AE	441.8000	Denton
KE4QAP	444.9750	Sophia
K4ITL	147.1950	Raleigh
W4OIX	145.4700	Kinston
W4TRP	224.8400	West Jefferson

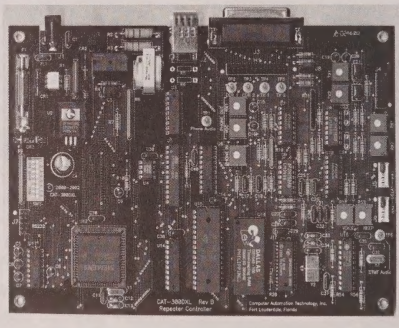
This group of repeaters are new coordinations. (8 repeaters)

KA4YMY	927.7125	Gastonia
WA4VTX	147.3300	Hertford
K4ITL	147.3450	Delco
KD4ADL	444.8250	Mint Hill
W4WAU	443.4000	Troy
N1RIK	145.3700	Southern pines
N4JDW	444.1750	Supply
KB4CTS	443.9250	Carthage

Thus for the 4th quarter, 2006, NC coordinated 8 new repeaters and recoordinated 8 existing repeaters.

CAT-300DXL Repeater Controller

The CAT-300DXL has all the features of the very popular CAT-300DX including a full feature autopatch and a Remote Base Port.



Features Include:

- *Voice Synthesizer ID*
- *(20) Voice Messages*
- *Real Time Clock*
- *(20) Position Scheduler*
- *Full Feature Autopatch*
- *(100) User Speed Dials*
- *Emergency Speed Dials*
- *Reverse Autopatch*
- *Remote Base Port*
- *CW Identifier*
- *(20) User Macros*
- *DTMF Audio Muting*
- *DTMF Pad Test*
- *(4) Logic Inputs*
- *(4) Output Switches*
- *Optional Windows® Editor*

Ordering Information

CAT-300DXL** Controller Board, Wired & Tested* ***$399.00
RME-1000** Rack Mount Enclosure* ***$99.00
ED-1000** Windows Editor* ***$69.00

Mississippi

Charles Diamond, K5ASL

Greetings from Mississippi.

Well I know it has been sometime since I last wrote an article but it has been real busy down here in the Deep South. I have been moving and of course getting through Christmas and all my daughters' birthdays. Hopefully we will have a great year and I would like to wish all the readers best wishes for this year.

Packet Network Developing: Remember the 80's ?

After Katrina came and really put us in back to the Stone Age for a few weeks, some of us started thinking: how we could help more and do more for our Emergency Operation Centers and various served agencies providing communications. One simple, tried and true mode is 1200 baud packet. It started with me and **Ken Burchfeild, K5JXL** with 2 TNCs. After a little bit I started working on a way to increase the network and **Aubrey Bilbo, KE5LT**, one of the SERA vice directors for Mississippi came through with a older Icom 2-meter mobile rig we placed on a taller tower near Mclaurin Mississippi, south of Hattiesburg. As interest has grown and plenty of searching by Ken for more packet users, Ken was able to contact some folks with the **Meridian Amateur Radio Club**. **Fred Gray, WB5BNV,** has helped and led quite a bit in that area. We now are almost working from as far south as Picayune north towards Jackson. We hope to get this network going to provide another way to communicate across the state. The Forrest County Emergency Operations Center is home to one node already. The goal, besides having fun, is to provide a way for the EOC's from the Coast ability to contact the **Mississippi Emergency Management Agency** with lists or whatever communications possible. One by-product is being worked on at present, providing a local TV station in Meridian with weather reports. Making the various hops from place to place and also all of this is possible because of individuals putting equipment on the air. One of big gaps was between Meridian and Hattiesburg. **Steve Earnest, WV5V**, Emergency Coordinator for Jones County, placed a TNC at Soso Mississippi. His station now makes the hop for us from Hattiesburg to Meridian

8th ANNUAL

Dayton Hamvention by Bus

May 18th, 19th & 20th, 2007

The bus will leave from Burlington, NC (Exit 145) on May 17th at 7 AM with the following pick up locations and times:

Greensboro	Four Season's Mall	7:20 AM
Kernersville	Behind Hardee's	7:50 AM
Winston-Salem	Lowe's Parking Lot	8:15 AM
Pinnacle	Exit `29	8:30 AM
Mt. Airy	I-74 /Exit 8	9:00 AM
Hillsville, VA	I-77/Exit 14(Citgo Station)	9:30 AM
Wytheville,VA-	I-81/Exit 80 (McDonald's)	10:00 AM
Bluefield, VA	I-77 TBA	10:35 AM

The cost will be $240 per person (which covers lodging for 3 nights at the University of Dayton (double occupancy) and the bus).
It is advisable to order your Hamvention ticket (good for all three days) in advance for $20 as they will cost $25 at the door. Their address is: Hamvention Advanced Tickets, PO Box 1446, Dayton, OH, 45401.

A $75 deposit is required by March 1st with the balance due by April 15th.

(Note: I will take the first 50 people to make a firm commitment – either by sending in their deposit or contacting me personally)

Bill Lundy, NC4BL
151 Brady Johnson Lane.
Mt. Airy, NC 27030

or email: nc4bl@surry.net
Phone: (336)320-2135
Fax: (336)320-2136

without any problems anytime of day. We are looking for more stations to come online and join the network on 145.010. New stations are appearing daily making the map you see printed here almost out of date already. So if anyone is interested in connecting or joining the group please contact me at K5AS@ SERA.ORG We hope to also be able to put a station at the National Weather service in Jackson so that we can print severe weather reports there also.

Finally I have started a packet keyboard to keyboard net on Tuesday nights at 7:30 central time. If you would like to check in please try. I will report our progress as we expand our network.

Wiggins Ham/Teacher Honored by the ARRL

In May **Candice Purvis, KD5VDV**, of Wiggins, was selected to attend the ARRL 2006 Teachers Institute on Wireless Technology in Roseville, California, on June 19-23. Candice teaches at Stone County Middle School and is the daughter of **Mike Purvis, WZ5Y,** of Hattiesburg. She was the first teacher from Mississippi ever selected for the ARRL Teachers Institute. Way to go Candice!

Hattiesburg Amateur Radio Club Elects New Officers.

The HARC recently elected some new officers for 2007. **Grover "Ike" Durant, N4ff**, is the new President. **Steve Nunes, N6OJN,** is the new Vice President. **Mike Purvis, WZ5Y**, remains the Secretary along with **Lex Mason, KD5XJ,** returning as the Treasurer. The HARC is also upgrading some of their equipment that Katrina damaged. Including the 146.775 repeater, which will replaced with brand new equipment, the club reports.

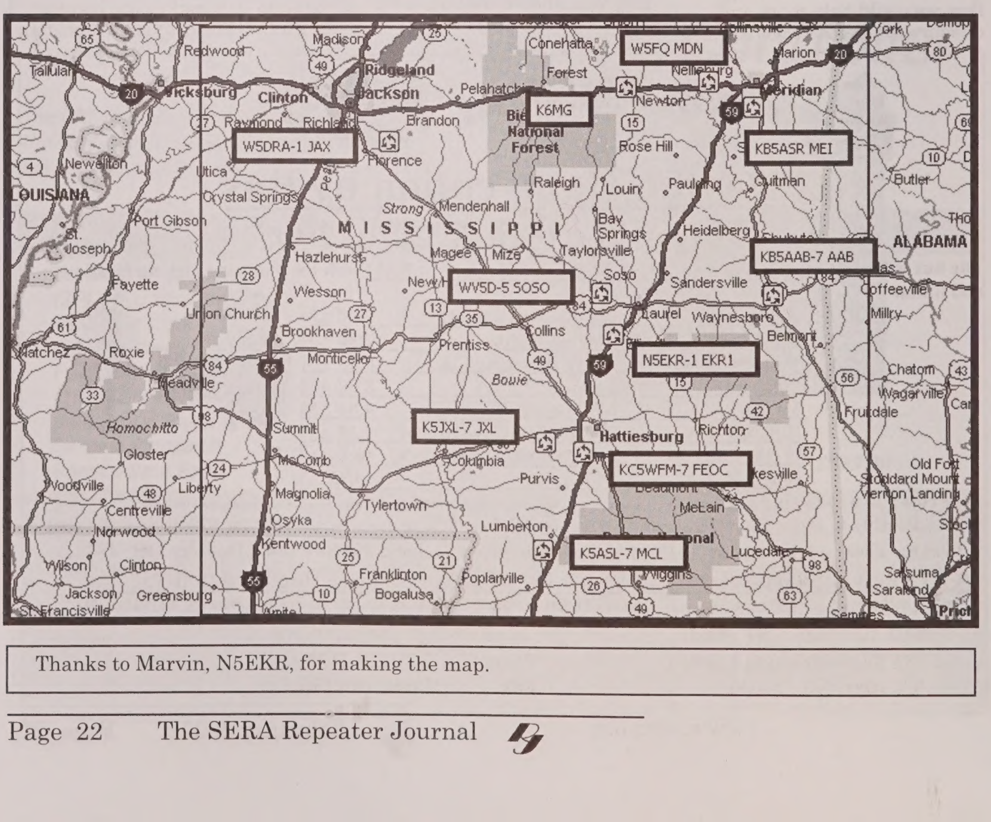
Along these lines; **Harold Stanton, K5GVR**, has his repeater on the air the 147.165 repeater near Mchenry. This repeater is on a tall tower associated with WXXV the Fox affiliate for South Mississippi. Harold reports that his repeater is open to all amateurs and requires a 136.5 tone to access it.

Meridian ARC Attains 501(c)(3) Status.

The Meridian Amateur Radio Club has attained their goal of being a 501(c)(3). This gives them tax exemption as a not for profit group. This allows individuals or business to donate money, goods, and services to the club. The MARC would like to thank James Armstrong, AK5J, for working on this with them.

Well, that's it for this time. I hope to have more news as it happens, so keep sending those emails to me. If you have comments or questions about the packet network feel free to email me about that also.

73, K5ASL



Thanks to Marvin, N5EKR, for making the map.

The SERA *Repeater Journal*

HAMFEST/CONVENTION CALENDAR

We urge hamfest sponsors to send their correct dates to the *Hamfest Calendar* editor as soon as possible

(**hamfest@sera.org**).

We acknowledge and appreciate assistance in confirming dates from SERA & ARRL Directors, the ARRL, commercial dealers, and many clubs and individuals.

THE SERA OFFICIAL REPEATER INDEX

REPEATER LISTINGS FOR: GEORGIA ■ KENTUCKY ■ MISSISSIPPI ■ NORTH CAROLINA ■ SOUTH CAROLINA ■ TENNESSEE ■ VIRGINIA ■ WEST VIRGINIA

IMPORTANT NOTICE: The SERA ***Repeater Journal*** is Copyright 2007 by the SouthEastern Repeater Association, Inc., the officially recognized Amateur Radio Repeater Coordinating organization for Kentucky, Georgia, Mississippi, North Carolina, South Carolina, Tennessee, Virginia and West Virginia.

The SERA ***Repeater Index*** may NOT be published or reproduced, in any form, by any individual, publication, electronic source, or any other means, for distribution without the expressed written consent of the SERA, Inc. All other rights reserved.

SERA will not be responsible for incorrect or omitted listings. The responsibility of correct listings is that of the actual repeater owner or sponsor. SERA makes every effort to keep the index as accurate as possible with information provided. The SERA ***Repeater Journal*** repeater lists contain certain repeaters which are NOT or have not been coordinated by SERA, or are not operating according to recognized frequency utilization plans. SERA does not necessarily condone or recognize such repeaters as being legal or illegal. They are listed in our indexes primarily to keep our readers informed of all repeaters known in the areas served by The SERA.

Some repeater owners or sponsors allow voice as well as other functions on their machine. Operators should check with owners for additional information about what is allowed, and what features are available. Digital Repeaters with normal input/output (pairs) are listed in the regular FM repeater index. Digital systems operating simplex are not coordinated by SERA and are not on our repeater lists. The *codes* column contains the tone or access code for those repeaters which the owner or trustee has given us written permission and asked that we publish them . Access tones are listed for the reader's convenience both in the By-State, and the By-Frequency listings.

Entries with "#" in front of city indicates repeaters added to this index that have not been coordinated through the local SERA state coordinator. Owners may work with their coordinator to get this indicator removed. Repeaters that have been coordinated but may not yet be on the air yet are listed with "PROP" in the codes column. Owners should notify SERA when on the air.

Repeater owners are reminded to contact their local Frequency Coordinator for assistance in coordination, changes in their listings, or any other requirements. All SERA services are FREE. It is very important that the annual SERA repeater datasheet, sent to all known repeater operators, be accurately updated each year and returned to SERA.

SERA RECOMMENDED FM VOICE SIMPLEX

PLEASE NOTE

The Repeater Journal lists subtones used on repeaters ONLY if they are requested to be listed by the sponsor or owner. The listing of a subtone on any repeater does not in any way indicate it being a "Closed" repeater. Generally in most cases, the tones are used to eliminate noise problems and are listed at the owners request for users convenience.

Did you know that SERA assistance in coordination, technical help, or interference information is FREE. We do not charge for any of our services. Our operating expenses are derived solely from voluntary membership of Repeater Owners and users.

In 2007, SERA enters it's 36th year of successful operation and service in the SouthEastern 8-states.

Our volunteers are here for you. If you have any questions about SERA, don't hesitate to call or ask. It's that Simple!

PLEASE NOTE

The Repeater Journal lists subtones used on repeaters ONLY if they are requested to be listed by the sponsor or owner. The listing of a subtone on any repeater does not in any way indicate it being a "Closed" repeater. Generally in most cases, the tones are used to eliminate noise problems and are listed at the owners request for users convenience.

Friendly Repeater III: Destination Dayton

By Gary Pearce KN4AQ

Back around the turn of the century I wrote a couple of columns in my old *Getting Started* series titled "The Friendly Repeater: Road Trip." Back then, a lot of people were complaining that they couldn't get anyone to answer them on foreign repeaters when they were traveling out of town. On trips to Kansas and Chicago, I attempted to prove that you could make contacts on the road. I was pretty successful. In a nutshell, my point was that you had to make a noisy production over the fact that you were there, from out of town, and you wanted some company. Mumbling kn4aqlistening wasn't going to cut it.

Today, people complain that they can't get anyone to answer them on their *hometown* repeater! Did *Road Trip III* have a chance? The destination: Dayton and the 2006 Hamvention®. Let's hit the road!

60 Meters Mobile

As I departed Raleigh, the VHF FM equipment took a back seat to my Icom 706MKIIG and a new 60-meter Hamstick antenna. We've had the 60m "band" for almost three years now. I got on 60m the first night the band was available to US hams (July 3, 2003), and I've listened now and then, but mostly I find it lightly used. Lately I've taken more interest after removing one of those microscopic diodes from the 706 that lets it transmit on 60m, and getting a mobile antenna. Turns out that 60m is a pretty good mobile band with a regular group of inhabitants, but still not a ton of activity, even in the evenings.

At 10 AM, not quite yet in the mid-day doldrums, I had a good long talk with Vance W4VC in Waycross, GA. I've come to find that Vance is a regular on 60m, and he had been talking to stations all over the southeast. I could hear most of them, including a mobile in Virginia. I called him when the QSO was breaking up. His observation was that 60m is good for 300 miles easily mid-day, with no skip zone. We chatted for about an hour. My other observation is that I've played a little locally around home between my mobile and my home station with xyl Cyndi, KD4ACW. 60m was usable far beyond the direct or ground wave of any HF band other than 80m.

FM, Anyone?

Oh, yeah, this is the *Repeater Journal*, not *The Sixty-Meter Gazette*. Back on track, yes sir!

"This is KN4AQ, mobile on I-40, heading from Raleigh to the Dayton Hamvention®, listening through the 15 machine in Greensboro." OK, I didn't actually say the ®.

As you work your way into Ohio, the most efficient route to Dayton is US 35, which runs diagonally from the WV line all the way to Dayton. I had misprogrammed the tone for the repeater in Galipolis, on the OH/VA state line, and I couldn't bring it up. So I turned to 52 simplex, where I ran into Jayson, W8OSP. He set me straight on the repeater tone, and also told me about a UHF link system that covered my route almost all the rest of the way to Dayton. Jayson sent me e-mail so I could talk on the system on my drive back.

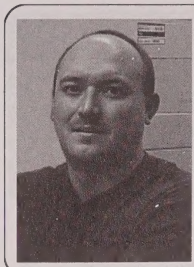
US 35 is sort of a concentrating area for stations heading to Dayton from the southeast. I'm sure I was never too far from other hams leading or following me anywhere along my route, but I've found that on US 35, you start hearing other mobiles on 146.52. Sure enough, when I signed with Jayson, a guy with a 1-land call, but who lives in the Lynchburg, VA area, called me. He was a few miles behind me. We talked almost all the way to Dayton, though we had to move off 52 when we closed in on other hams using the channel.

The Trip Back

Often when I've been to Dayton or some other intense, long-term ham activity, on the trip home I'll turn the radios down and crank up the stereo. Before doing that on this trip, I spent some time on the Ohio UHF link system and yakked continuously while I was in range. They were tickled to have an out-of-town traveler traversing the system.

This year's dates are May 18, 19, & 20, 2007. You used to have to make reservations as you left your hotel the year before. I've had good luck booking a little later, but I stay about a 30-minute drive from the hamfest. Motels closer book up earlier.

Anybody else in Raleigh want to go?



Get The Hammer!

... and let's get technical

Randy McKenzie, KK4EJ

Time slips away.

Hello all, I hope the New Year has found each of you healthy and happy.

Ever open up a drawer or old forgotten box and find it full of old memories? That happened to me several times the last few weeks. In fact, because of some of that history, it required my time instead of an article for the last issue! 20 years ago I graduated High School, and as the class President, I was in the middle of organizing a reunion! It was great seeing many of my old classmates, and I'm very proud of how we have done with life.

I opened up a old box, almost forgotten since we moved three years ago. Inside were some old computer disks, pens, and a few pictures. One was of the old Control Room at WCOK in Sparta NC. This was my first radio station, and I admit my country accent didn't make me the Paul Harvey of the air! But I started there, enjoyed playing old 45's, trying to be funny, and of course trying to not get a call from the boss on the "hotline". WCOK is where I first met Hersey Shumate, K4QFQ. He would often be there on a Saturday, checking the Gates transmitter and logs, leaning on the record file and enjoying a cold drink. We became friends.

Later he would give me my novice test at his house.

Time slips away from me, as my wife often reminds me, I forget things..... 20 years ago I was a tall skinny High School Graduate, 13 years ago I began working with VSP, 9 years ago I proposed marriage to my wife, and 8 years ago we were married. Seven years ago my daughter was born; 3 years ago my son was born. Five years ago I began building my house,

ROANOKE HAMFEST

Sponsored by Roanoke Valley ARC

8:00AM - 3:00PM, August 4, 2007

William Byrd High School

Washington Ave. (Rt. 24), Vinton, VA

Call W4CA

3 years ago we moved in, 2 years ago I started working on my model railroad. One year ago I was in Waveland MS thanks to Katrina. These kinds of events in life we all tend to remember.

A picture of a radio station control room can take me back to the joy of a ice cold Dr Pepper, the smell of popcorn, Hersey leaning on the record file, and the experience of learning how to "spin records" and rip and read the AP news wire.

In that box was also a copy of my old ham license. My first call was KB4YFV. I was an old "Tech Plus" for a long time. In fact I never even thought Id ever upgrade because of the code. I rode to college many days using my Icom 2AT portable, hooked up through a cigarette lighter plug and a 1/4 wave mag mount antenna. I remember sitting there with Hersey, trying to copy that code. Five words a minute for my novice. I worked for months to make it, and finally I did! I even have ONE QSL card from Gary Sutherland, KM4X, which proves my one and ONLY CW contact! I have it in a box somewhere I'm sure!

With the challenge to learn code and upgrade from Ron Keene, I listened to tapes, a lot of off air code, and made myself sit in on it. Granted the technical parts of the tests were a lot easier for me, but that darn code was the issue. So I took the challenge and Ron and I both upgraded from Tech Plus to Extras. That is when I also got the vanity call of KK4EJ. I knew when I walked out after passing the tests I'd probably never work code, but I was proud that I did pass the test.

I'm sure many of you feel the same way.

Now time has slipped away and the FCC has dropped the code requirement. How do I feel about it? I think we will get a lot of good hams. I also KNOW we must self police ourselves and not become CB'ers and closed minded. The history of ham radio has proven itself so valuable over time. The new ideas of today are driving the wireless world. Twenty years ago, would you have ever dreamed of the vast wireless networks online today?

Time has a way of changing many things, but it's not always a bad thing. Do I want to go back to spinning 45's instead of pushing a button for a CD? Not really.

Do I want to go back to my old Heathkit HW202 and give up my new Kenwood? Not really. So good or bad, I hope we all accept the fact that ham radio will be changing a lot too. Even I have to change the way I think about things, but I hope as I grow older and wiser, I can take the experience of yesterday and use it to make tomorrow a better day.

I looked at my high school picture and wondered who that tall skinny guy was! He had HAIR! Today I'm 80 pounds heavier, receding hairline, and I won't even mention the gray that's starting. How much of the gray do I contribute to experience or kids? Surely 70 of those pounds is the experience? My wife might suggest I'm full of other things. If I could talk to that nice looking young man, I'd tell him do not worry about tomorrow, each day has enough trouble of its own. That scripture has guided me through time.

Till next time, GOD Bless!

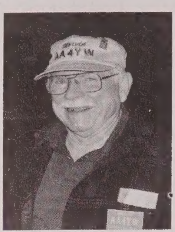
WE'RE **STILL** LOOKING FOR A FEW GOOD VE TEAMS!



Let's Look At It--- This Way !!!

Marvin Whatley, AA4YW

Getting Old

Walter and I were leaning over the railing looking into the parking lot. We were killing time. Our wives and kids (my grandkids) were inside one of the tourist shops in this little complex along highway 17. We had come to the Outer Banks for surfing and swimming, but this was an obligatory stop.

"Walter," I asked, "why would anyone spend the money, or perhaps the time for something like that?" I was nodding toward the hood of a Pontiac firebird that was covered with an elaborate, extremely ornate, painted flaming eagle of some sort.

"Well, Dad," he indulgently condescended, "that's his thing."

It has been many years since I first discovered that my adult children could be a surprising source of wisdom. I have learned to listen and pay attention to what they say. After I made a few "Oh, come on ..." noises he continued to point out that everyone had something that he did, and that an overwhelmingly large fraction of them made almost no sense. People collect dolls or hike in mountains or surf or play with radios or make quilts and if you push any of them far enough, the reasons are tenuous. Any one thing to do makes about as much sense as any other. Oh, I suppose some can endanger your health and others may be physically good for you, but we spend our time and money on them far beyond the significance of any such rationalization.

When one is young, a large fraction of time is spent doing things that are required. We must learn a skill to earn money and then we must work at it, which seriously constrains us. Many of the "things we do" are associated with our work, and that is usually good. Many are tied with family and follow rather formal patterns. The few spontaneous projects and enterprises that express our inner interest usually fall into a developing pattern, sort of defining who we are, and this aspect of us is often very much more whimsical than we would publicly admit. As we mature, things change. I firmly believe that maturity brings wisdom. (Most old people think so.) Over years one sees some things come

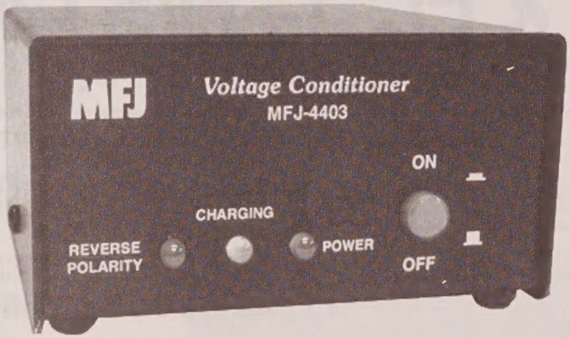
to beautiful fruition and others rot and decay. You look at your ideals and see how many have held up and how many were, perhaps, delusions. You review your mistakes and concede that often you just had the wrong idea, or perhaps the right idea but you went about it stupidly. You retire, and suddenly the number of things you are required to do greatly decreases and you find yourself enmeshed in an array of projects, only a few of which carry any significance. Yes, Walter, everyone has his thing. I now better understand the guy who paints a flowing flaming eagle on the hood of his car and I have found myself less apologetic for the apparent inanity of my own "things," and less inclined to explain to the world why I am doing what I am doing.

After retirement and years pass you realize over how little you still have any control. You see major problems with the way the country and the world are being run, and you extrapolate popular trends to inevitable certain doom; but we won't even think about that. It's the littler things in life that are slowly but steadily going away. You may buy a new car, but it will have a lot of things on it that you don't want, and you will miss several that you remember cars used to have. You can buy shirts and shoes and belts, but not what you would really like. You can still tie your shoes, but it is no longer a trivial task. In fact, most of the things that once happened as soon as you thought of them you now think through with a plan, and every time you move, you aim.

So, what do you do? The Boston marathon is out. And most activities that require more than nominal walking must be carefully evaluated. There are also budgetary constraints. I suppose I could paint flaming eagles on the hoods of cars, but that really is not my "thing." So, within my confines I invent my own little projects and isolate trivial problems that beckon to be solved and thus I constantly amuse and frustrate myself.

While visiting my mother in the nursing home, a few presidential elections ago, the conversation revolved around her fantasies. Her memory had been largely destroyed by several strokes that also kept her bed-ridden, but the logical and analytical parts of her mind were still keen which made for interesting dialogue. She was 93 years old. After a while I announced that I had to leave. I was going to vote and today; the United States was going to choose who would be president. "Is that really important?" she asked. "Well," I attempted to explain, "it is likely the most important thing that is happening in the world right now ..." She gave the resolute nod that she usually did when our visits ended. As I left I said, "I love you."

"Now, that's important." she said. When the years pile up, your perspective does change.



MFJ-4403 Transceiver Voltage Conditioner provides reverse voltage, over-voltage, voltage transient and short circuit protection. Gives super noise and ripple filtering and power supply buffering for your base, portable or mobile transceiver. The MFJ-4403 really shines in mobile and portable operation where your non-ideal voltage source could cause extensive damage.

If you accidentally reverse your voltage connection, the MFJ-4403 protects your transceiver against instant destruction and alerts you with a bright warning LED. Once the DC polarity is corrected, the MFJ-4403 recovers and operates normally. Heavy-duty transient suppressor handles peak currents up to 200 Amps -- protects your transceiver from vehicle and poorly regulated power supply start-up voltage spikes.

Four Farads of ultra high-value capacitors filters off virtually all power supply noise and ripple, and provides enough power supply buffering so that even underrated and marginal power supplies will run your HF transceiver. For temporary mobile operation -- rental car, weekend trips, vacations, etc. -- the ultra high-value capacitors in the MFJ-4403 provide enough power supply buffering to let you run full 100 Watts SSB from your 10-15 Amp cigarette lighter socket.

Standard Anderson PowerpoleTM connectors are used for the DC input and output. MFJ-4403 measures a compact 4Wx3Hx2D inches.

Scholarship Information

Every year, through the generosity of your fellow amateurs, scholarships are awarded to amateurs seeking to further their education. Generally, these scholarships are not restricted to any course of study, but the applicant must be seeking at least an Associate degree from an accredited college or university. Also, it should be pointed out, these awards are not restricted by age!

Many amateur radio scholarships are administered by the Foundation for Amateur Radio (FAR), including 10-10 and QCWA. All these awards may be qualified for through a single application. Some awards require sponsorship by a member of a particular organization (just a signature, in most cases), so plan to begin you application early to allow ample time to collect the information you'll need.

Requests for the application package should be sent by April 30 to

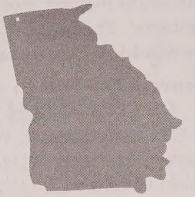
Georgia



John Talipsky, N3ACK

Greetings from Georgia!

Congratulations go out to Pete Seabolt, N4KHQ, elected to Director and Phil Heaton, N4BBQ, elected Vice Director for Georgia. Past GA Director Terry Jones, W4TL, and Rick Wright, W4LOC, will continue to assist the team as Assistant Directors. Pete, N4KHQ; Phil, N4BBQ and Rick, W4LOC, will also handle Frequency Coordination. Let's make 2007 a banner year for GA Repeater News!

Club News

The **Albany ARC** elected the following slate of Officers for 2007: President Ken Adams, K1KBA; VP Joe Woody, WG4JOE; Secretary Leon Perrett, K4GCR; and Treasurer Bob Smith, K4PHE.

The **Conyers ARC** recently held elections to select the officers who'll be leading the club in the New Year. Congratulations to President James Wiseman, KF4ASC; V- Gerlad Sizemore, WB4INZ; Treasurer Tim Rosing, KC4ELV; and Projects & Programs Guy Puckett, AF4MN.

The **Ellijay ARS** recently selected the following slate of Officers to lead the club into the New Year: President Bob Burdick, NB8N; VP Dow Hoffman, N4VYU; Secretary David Barlitt, KG4AWU and Treasurer David Frederickson, WB4HZG. Sam Undershill, K4SWU, will be the Chief Executive Officer, and both he and Dave Meadows, K4LDI, will serve as Elmers to the incoming officers.

The **Gateway ARC** located in Cleveland, GA elected the following slate of officers: President Don Collins, KA4BSL; VP Dean Dyer, KD4JDG; Secretary/Treasurer Diana White, KB4SNU.

The **Gwinnett ARS** awarded a very hard working and Past President of GARS, David Adcock, KA4KKF, the 2006 Ham Of The Year award.

The **North GA QRP** October Club Picnic was a great success. About 25 or so did a little QRP operating and had a great lunch at the Brook Run Park in Dunwoody. Joe, W4JHR did the cooking, Susie Schklar did the kitchen work, Jim, W4QO, watched over the operating. Door prizes for everyone! The NoGaQRP club meets monthly at 10 a.m. on the second Saturday of the month at the Wieuca Baptist Church in Buckhead.

The **Northwest GA ARC** announced this club's new team of officers for 2007: President Grover Keith, KA5QFI; VP Bill Dickert, KD4EKZ; Secretary Ellen Dickert, KD4NTF and Treasurer Virginia Brock, KF4NYH.

The **Paulding Amateur Radio Club** reached a new milestone in December, with membership reaching 62 members. PARC's long-time members have welcomed new members with open arms, club activities have helped build a great sense of teamwork, and new members have been ready to participate. It's been an incredible thing to see and everyone in PARC should feel very proud of our accomplishment. This club elected its new officers at its November 28 meeting, and unanimously elected President Al Martin, KF4RPQ; Secretary Brian Keahl, KI4LZG and Treasurer Tom Burkhart, KI4MDU. Andy Peltier, KI4HVN, was elected to the 1st Vice Chair position. Congratulations and best wishes for a successful year. PARC membership officially approved the creation of a PARC youth group already operating informally. Al Martin, KF4RPQ, and Sammy Graham, N4YDX, have setup a Youth Committee charged with expanding the amateur radio ranks through the recruitment of young people. The group's mission is to promote amateur radio at school and other places where they associate with others in their age group. The PARCVE Team will assist with training and testing. Nicholas Hensley, KI4KWA, the longest standing youth member, is heading up the project with the assistance of his grandfather, Sammy Graham, N4YDX.

The **Silver Comet ARS** announced the following slate of officers were elected to serve in 2007: President Lee MacDaniel, WB4QOJ; VP Sean Sparks, W4JFL; Secretary Ron West, WB3ILX and Treasurer Dave Fuller, K4DMF. Congratulations to them, and also to the two special hams who were selected as 2006 Ham of the Year: Les Wilding, K4OL, recognizing him for his work on educating the local utility on its BPL efforts; and Ron West, W3ILX, for his support of the club.

The **Thomasville ARC** hit a milestone of sorts or something unheard of in most clubs, Mike Brown, KE4FGF, was elected to his thirteenth consecutive term in office. Joining him are VP Wynona Sadler, KF4HSM; VP of Special Events Lawrence Mccuthin, KC4LYC; Secretary Terry Hunt, K4HNT; Treasurer BobbyCooper, N4KXL and Newsletter Buddy Peeples, WD4CJI.

Activites and Awards

Ever wonder why a state the size of Georgia would have 159 counties? California, which is THREE times as big, only has 58. So why 159 for Georgia? Some people say it's to provide a more fertile environment for, um, "local politics." Others say it's so that every person in the state could go by mule from his home to the county seat and back in one day.

We think not. We think that, in a moment of clairvoyant foreknowledge, our state leaders knew that Ham Radio operators of the next century would appreciate a challenge, and structured the present administrative nightmare solely for the benefit of our hobby!

The Atlanta Radio Club, a Special Service Club of the Amateur Radio Relay League, with the support of the Georgia Section of the ARRL, continues to sponsor an award, the "Worked All Georgia" Award. The WAG Award is open to radio amateurs who can provide proof of two-way radio amateur radio contact with all 159 counties in the state of Georgia.

Grab your list of Georgia repeaters from The Official SERA Repeater Index located in the middle of this publication and begin logging those contacts! For more info, go to www.w4doc.org/wagaward.htm.

Georgia D-STAR in service

On 11-25-06 Terry Jones, W4TL; Greg Sarratt, W4OZK; Marty Passmore, WD4J; Robin Cutshaw, AA4RC and Doyle Gantt, W4DJG met atop Sawnee Mountain to install a new D-Star repeater system. Its sole purpose is to provide a data link from the two portable D-Star repeaters that will be deployed to the field in a disaster to the North American Mission Board (NAMB) in Alpharetta Georgia and to the Salvation Army's Region Office in Atlanta. The D-Star repeater call is KI4SBA and the frequencies are 145.19 (-600), 444.350 (+5.00) and 1284.400 (1.2GHZ). Station WWEV Victory 91.5 FM of Cumming, Georgia graciously provided space within their transmitter building for the installation. This same site also houses the W4CBA repeater which belongs to the Chattahoochee Baptist Association. The W4CBA repeater serves the Atlanta area and also provides the NA4MB Echolink Node active 24/7 and remains online continually in conference mode and is also continually connected to the W4CBA-R Echolink repeater. The Echolink Node is 286635. If you are mobile in the metro area you can contact NA4MB on the W4CBA UHF repeater on 444.625 MHZ PL 123 or connect to it via Echolink Node 192874. You can get a look at the new system at www.southbears.net/d-star.htm.

The Atlanta Radio Club operates the other D-STAR system from Stone Mountain on 145.35 (-600), 444.45 (+5), 1291.0 (-20), 1253.0. Robin Cutshaw, AA4RC, is also involved in this project.

SERA continues to discuss the issue of D-STAR and is working on formulating a plan for future D-STAR frequency coordination issues. More info to follow from SERA after the Winter Meeting.

What's On Your Mind?

What would you like to see in this column? Let me know and ask your local club to include me in their newsletter mailings. Attention Georgia Repeater Owners. Are you a SERA Full Member? I would like you to consider joining SERA. Let's make all 531 coordinated repeaters full members of SERA. Look for us at a hamfest near you this year or don't wait and go ahead with your membership today by joining today!

Attention

Effective imediately, send all correspondance for *The SERA Repeater Journal* to the following address:

The SERA Repeater Journal
410 East Sprague St
Winston-Salem, NC 27127
Tel. (336) 499 - 7169

This includes all editorial content (stories, news, pictures), advertising, and comment.

State news should be addressed to the appropriate state correspondent.

Coordination issues should be sent to the Frequency Coordinator (FC) having geographic jurisdiction.

For addresses and telephone numbers, please consult the listings in the front of this magazine.

Nostalgic Wavelengths

David Bower, K4PZT

A Story of Two Receivers

In the mid 1950s, electronics was a fascinating subject for a youngster growing up in the era of the space age. Various electronics magazines on the newsstand were chock full of articles about radio receivers and other gadgets.

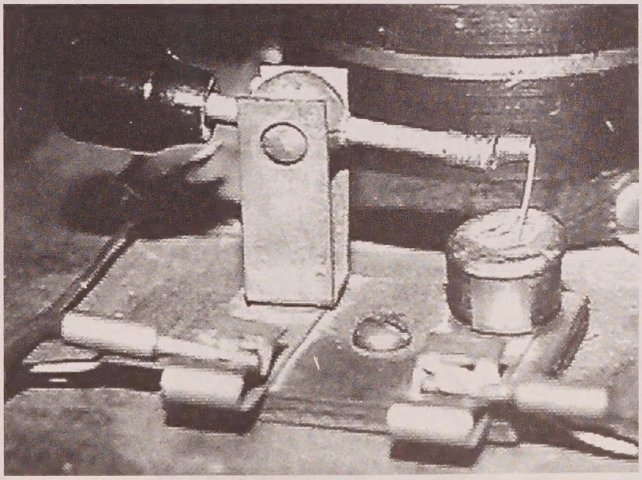


Figure 1 : Note crystal cup detector, adjustable probe in holder, and cat whisker (fastened to end of probe), to locate a sensitive spot on the galena crystal.

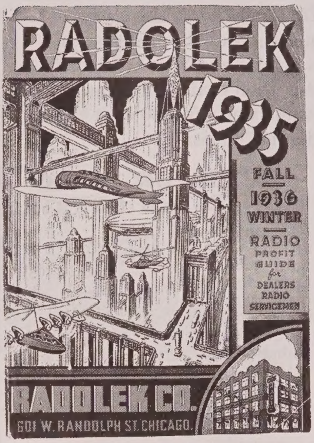

Figure 2: A 1935 catalog for purchasing electronic parts. Note how the "future" was viewed on the cover.

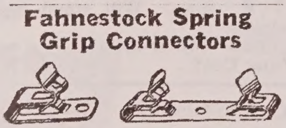

Figure 3: Fahnestock grip connectors. Both single and double grip types were available.

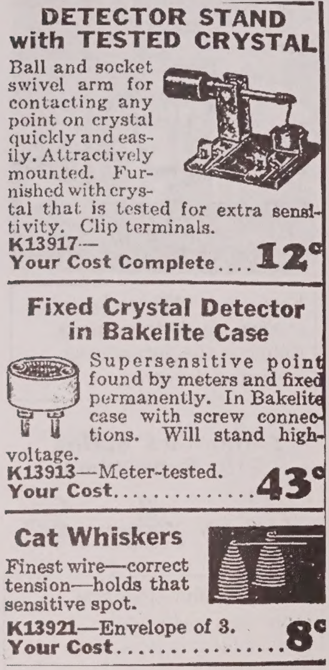
I vividly recall my first receiver, and the enjoyment in building and using it. It was a simple device with a galena crystal cup detector, a coil on a large paper cylinder, a condenser and assorted hardware. It used a pair of Trimm 2000 ohm headphones as the listening mechanism. I constructed the receiver on a piece of wood for a chassis. A device referred to as a cat whisker was employed to select the most sensitive spot for reception. It was mounted on a small shaft with a round sphere secured in a clip for movement (see Figures 1). The coil used enamel magnet wire wound on a cardboard cylinder. A slider was used to tune (select) the station, but first a narrow strip needed to be sanded across the coil to expose the bare copper. The leads for the various components were connected to metal Fahnestock clips. The spring tension of the clip held the wires in place (see Figure 3). The clips were also used to connect the earphones.

The completed receiver required a long external wire for reception and a ground connection. Once connected, I was pleased to hear the booming sound for WNOX, a 10,000 watt AM broadcast station only a few miles away. But the station was so strong that it blocked most of the other stations in the Knoxville area. On many nights, I used to listen to my new receiver before falling sleep. On one such "late" night after WNOX had signed off, I was able to receive WSM in Nashville, Tennessee 175 miles away. I guess it could be said that this was my first SWL DX of sorts. But, then again, WSM (as I later found) was a 50,000 watt clear channel station.



DETECTOR STAND with TESTED CRYSTAL

Ball and socket swivel arm for contacting any point on crystal quickly and easily. Attractively mounted. Furnished with crystal that is tested for extra sensitivity. Clip terminals.

Enter the Vacuum Tube

My fascination with radio receivers was soon to enter a new era after the acquisition of a used Knight Ocean Hopper receiver for the bargain price of $ 5.00. The reason for the "bargain" was soon discovered when a more knowledgeable (and older friend) pointed out that it had been constructed with acid core solder. To rectify the situation, so to speak, I took the receiver apart and cleaned the chassis and other items that were corroded. After I "resoldered" all the items back in place using rosin core solder, I was pleased to hear the Ocean Hopper come to life. The Ocean Hopper was introduced as a low cost and easy to construct kit in the 1950s. It only used three tubes, but all were of the more modern miniature type. A 12AT6 was employed as a super regenerative detector feeding a 50C5 audio amplifier. A 35W4, as a half wave rectifier, supplied the DC power. To save on cost, the receiver was of the AC-DC type without a power transformer and precautions had to be "observed" to minimize electrical shock. The receiver covered the frequency range of 155 kcs[1] to 35 mcs[1] using six separate plug in coils to change frequency bands.
The operational controls were simple and straight forward. The sensitivity of the receiver was controlled with a regeneration control, which also was used as an on-off power switch. For CW reception, the regeneration control could be advanced to provide a tone for Morse code reception. The receiver had both main tuning and bandspread controls. The controls did not indicate the frequency but, rather, were numbered from 0 to 100. An antenna trimmer on the left was used to peak the received signal for different bands and/or antenna types.
The Ocean Hopper was my first receiver when licensed in the late 1950s as KN4PZT. I used a pair of Trimm 2000 ohm earphones for audio and constructed a home brew 807 transmitter running about 60 watts input. And I still remember my first (and only frequency), provided by a 7.183 mcs type FT-243 crystal.

The first simple crystal receiver introduced me to the magic of electronic construction and antenna experimentation and the second receiver joined me as a newly licensed ham. And that "magic" is still there, some 50 years later.

NOTE:

[1] Some 50 years ago, the tern "condenser" and "mcs or kcs" were in vogue terminology.

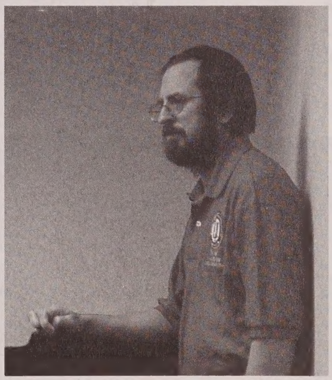
On the bottom back strip (at bottom of picture), the earphones plugged in on the left; terminals for an external speaker are shown in the middle; and the Fahnestock antenna clip is shown on the right.

Thanks, David

In 2006, The SouthEastern Repeater Association observed thirty-five years as an organization. Setting up a repeater system in the 1970's was quite different from what is done today: you needed a special station license from the FCC, the rules for operation and control were much more stringent, and the equipment was quite different (much of it still used vacuume tubes.) Repeater users were restricted, too: mobile operation still required detailed logging, and frequency agility was limited by the number of crystals you had bought and plugged into the half-dozen or so channels in your radio. With the idea of making VHF repeaters work well within these restrictions, groups of amateurs began working with each other to agree on geographic and frequency spacing between their repeaters--- and Amateur Radio Frequency Coordination was born. One of the trailblazing groups was formed in North Carolina, and this group eventually merged with groups in seven other states to form what we know as SERA.



SERA is an organization, and it is an organization of people. My first exposure to this group was during a visit to Andy Pitts, WA4GIC, in the late 1970's: just that day, he received the lastest issue of a small newsletter call the *Repeater Journal*. It might have been during that same visit that I first heard the voice of Danny Hampton, KM4OX, coming out of Andy's radio. Like anyone who went to a hamfest in the 80's, I kept running into Wayne Williams, K4MOB. When I finally made it to the Shelby hamfest, one of the people who greeted me was David Ward, KA4LVO at the time, and now W4WDW. David was (and still is) soft-spoken, and he didn't give me the hard-sell to try to get me to join SERA; he was just kind enough to give me my first copy of the *R-J*.

As luck would have it, David and I both live in Forsyth County (NC), and we started crossing paths at ARES public-service events. It was while working at one such event, a March of Dimes Walk-A-Thon at Groves Stadium in Winston-Salem, that David brought his wife Sharon along. While she wasn't a licensed radio amateur, she was willing to pitch in and help by becoming the "offical" MOD public address announcer! Little did I know, at that time, how involved Sharon was in David's ham radio activities... but that will be described later in this story.

For most of his life, David has worked with computers. One of the best uses of computers is to take over the dull, repetative tasks humans used to do: things like record keeping and information processing. As SERA grew, it became apparent that there were two areas where this could be applied: in the coordination data records, and in the *Repeater Journal* mailing list. Over the past thirty years, David has developed systems to compile, track, and use this data.

Every year, SERA mails a "data sheet" to every repeater owner in its territory. This sheet tells the repeater owner what data SERA has on file about each repeater, and requests that the repeater owner note any changes regarding his repeater and return the data sheet to the SERA Post Office Box in Tobaccoville, NC. When all this information floods back to SERA, it is David and Sharon who pick it up from the Post Office, take it home, and enter the data changes into the SERA coordination database. This data is of vital importance because it forms the basis for all future coordination action taken by the state directors. By knowing exactly where each repeater is, how high it is, its radiated power, its antenna pattern, and other data, new repeaters can be allocated frequency pairs in a way that actually *prevents* interference from happening. The completeness and accuracy of this data is what makes frequency coordination work.

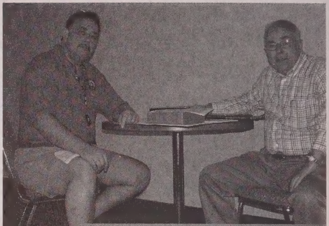
The other side of the data management problem for SERA involves the magazine that you now hold in your hands: *The SERA Repeater Journal*. Four times a year, a few thousand of these are mailed out, and it takes a bit more than luck and magic to make this happen. Every full membership, associate membership, and change of address is also processed by David and Sharon, often right up until the very moment the mailing list is generated for each issue. In the "old days" before postal regulations changed, David would handle the entire mailing process, including printing the address labels; many nights, David and Sharon would fall asleep to the sound of a dot-matrix printer churning out labels at the foot of their bed in the small A-frame house they lived in at the time. Later, they would take those labels and meet a few friends and family at the apartment Sharon's grandmother had in Greensboro, where we knew we would be on the last Thursday evening of January, April, July, and October sticking labels onto books and loading them into mail sacks. Even though the actual mailing process is now handled by a commercial firm, the efficiency and reliability of those volunteers remains unmatched.

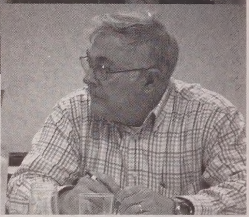
Finally, while I often claim to edit a sixty-four page magazine, more than eighteen pages are composed by David. Of course, I refer here to the Repeater Index in the center of this book. While it might take more than fifteen hours to put the rest of the *Repeater Journal* together, the index now takes less than five minutes, thanks to improvements that David has made to the process over the years. What once involved days of typesetting, then hours of cut-and-paste, now can be done with just a few mouse clicks.

So, while it isn't much, the SERA offers a sincere "Thank you" to David Ward for his thirty years of service, and also to his wife Sharon for the twenty-seven years she's been working with him. Together, they have more than a half-century behind them, and we hope that they'll continue to touch the lives of countless radio amateurs for years to come.

Tom Gallagher, N4IOZ

SERA Board January 2007 Meeting

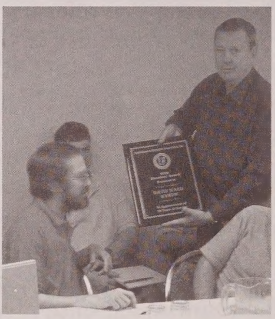




The SERA Board of Directors met on January 6-7 in Pigeon Forge, Tennessee.

On Saturday morning Frank Lynch, W4FAL, held a training session for frequency coordinators.

The Saturday afternoon session brought together officers and staff from all eight SERA states, plus Ron Shaffer, W4VM, from Alabama.



One of the first actions by the board was a presentation to David Ward, W4WDW (ex-KA4LVO) in honor of his thirty years of service to CVRA/SERA.

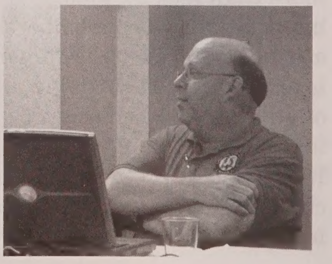
In the state reports, W4FAL reported two interesting facts: many states now have more 70 cm repeaters than 2m, and *contrary to "conventional wisdom"* there *are* 2m repeater pairs available in many areas (although NOT in high-density population centers!)

There was some discussion regarding VHF$^+$ digital modes (D-STAR and P25, etc.) and the SERA process to welcome these new operations to the airwaves. While SERA would like to set aside a portion of 2m (and other bands) for these operations, reality currently prohibits this. Also, it was pointed out that frequency time-sharing of a particular repeater (same site, same frequency) between modes is currently perfectly OK.

The database committee met on Saturday evening and discussed their findings after more than two years of work. The current project will move the database to an on-line status over several phases.

During discussions, it was pointed out that it is "extremely important that every club know where "form 5" is for their club's repeater."

On Sunday morning the database committee reported the summary of their discussions to the board at large and the meeting adjourned. The next meeting of the SERA board will be in June, probably in Kodak, TN.



Saturday June 2, 2007 - Jim Miller Park, Cobb Co.

Attention Hamfest Advertisers

The SERA Repeater Journal welcomes the opportunity to assist you in promoting your event with both our FREE Hamfest Calendar listings (email to <hamfest@sera.org>) and our paid advertising placements. Your ad in the *Repeater Journal* will reach thousands of radio amateurs in the southeast--- *active* hams who are eager to come to your event.

We can accept your ad for future issues of this magazine in just about any computer file format generated by commonly used applications, including MS-WORD, Pagemaker, InDesign, WordPerfect, and even PowerPoint. To assure compatibility, please refrain from use of proprietary fonts which can't be included in the file that you send to us. As always, if you prefer, we can accept "camera-ready" copy sent via mail.

Please refer to our ad rate card; you'll find that advertising in the *R-J* costs much less than you might expect!

Special Note

To avoid possible misunderstanding, effective with the May, 2007 issue of the *Repeater Journal*, we will send an advertising placement order form to organizations wishing to place an ad in the *Repeater Journal*. This will help us assure that you receive the service that you expect, while providing us with the placement and contact information we need to provide you that service. Be sure to allow time for this form to be returned to us before the press run for that issue.

We thank all those hamfest sponsors who have advertised with us in the past, and we look forward to helping spread the word of your events for years to come.

These powerful HTs make perfect companions for outdoor activities like fishing, camping or snow-sports.

The rugged polycarbonate materials are compatible to IPX7* so these HTs are submersible 1m/3ft. for 30 minutes! And unlike water-resistant radios you may have looked at before, the DJ-V17 and DJ-V47 both have a large 40mm internal speaker so the audio is clean and crisp, not muffled. You can enjoy 500mW max audio-output, new two-touch repeater access, and over 200 memories. A special battery-drain function helps avoid battery memory-effect. Other features include an ergonomic design, ultra-flexible antenna with SMA connector, 39 CTCSS settings, split function, two-level attenuator and more. Whatever your idea of outdoor fun, Alinco's DJ-V17 and DJ-V47 are ready to take on the challenges of rain, dirt and dust and come back for more.

- New, two-touch repeater access
- High grade waterproof materials compatible to IPX7* (submersible 1m/3ft. for 30 min.)
- Rugged polycarbonate body resists dirt, dust and moisture
- Large 40mm internal speaker for great audio!
- Highly visible backlit alphanumeric display
- Direct frequency input through illuminated keypad
- 200 Memories, plus one call channel and one repeater access parameter memory
- VFO, Memory and Scan modes
- Ultra-flexible antenna with SMA connector avoids breakage
- 39 CTCSS tone squelch (encode+decode) settings
- Tone burst function (1,000, 1450, 1750 and 2100Hz)
- Battery-drain function avoids memory-effect
- Cloning feature
- Ni-MH standard also uses optional Lithium-ion and NiMH battery packs or AA dry cell case
- SMA antenna port
- 2-level attenuator
- Waterproof single mic/speaker jack

**Alinco guarantees this feature for 1 year provided all jack covers are properly and securely closed.*

One Touch Reply

Voice Recorder & Auto Reply Message

Position Exchange

DX Communication Via the D-STAR System
(2M & 70CM D-STAR Repeaters now available at your authorized Icom dealer)

(Actual Size)

ANALOG & DIGITAL.

It's not just digital. Analog is there, too. Both capabilities in one radio. And what a new radio it is! With infrastructure and a family of D-STAR compatable radios, you're not buying an experiment. That said, digital is the future of amateur radio. And experimentation is a foundation of ham radio. So now you have to ask yourself, "do I pick up the analog only '91A version, which is optionally upgradeable to digital? Or do I take the '91AD, which offers digital right out of the box?" It's your choice. Commitment can be a wonderful thing.

Coming soon to your authorized Icom dealer!
